

Château de Ruth

DOMAINES

Vincent Moreau

JARDIN DE RUTH IGP VAUCLUSE ROUGE

Syrah 50%, Marselan 50%

Grapes harvested in August 26, 2020

Vines 8 years of age (average), Cordon de Royat pruning, south orientation, vine yield 60hl/h, HEV certification level3

Clay-limestone soil

Thermo-regulated tanks and pre-fermentation maceration

The brilliant red color of this wine, its elegant and floral nose let guess the freshness and the subtle aromas of this wine.

In mouth, the aromas of red berries and roses get involved everything in elegance

Suggested wine pairing: aperitif, white and red meat, poultry

High environmental value (HEV) is the official recognition of the environmental performance of winegrowers. HEV covers four key areas: biodiversity conservation, plant protection strategy, management of fertiliser use and management of water. In order to engage the whole agricultural sector in an approach focused on environmental progress, it is designed on the basis of certification of the whole farm at three levels.
